

(Inspired by Pipilotti Rist's *Pixel Forest*)

Pixel Forest

Like jellyfish in a sea of air.
Iridescent, ever-changing crystals
suspended in space.
Ranging from soft blue to Autumn red.
I fall back,
letting my trust go in my surroundings.
Follow the path laid out,
go!
Be one with your surroundings
Calm your mind,
Release your body,
Surrender to the flickering lights.
Know what it feels like to be.
LIGHT!
