

Remember Me

What will people remember about me if I die?
One day death will come for me.
What will you recall when I say my final goodbye?

I wish what I was telling you was a lie,
but I won't be set free.
What will people remember about me if I die?

Does my name make you raise your head high,
and wail to the sky like a banshee?
What will you recall when I say my final goodbye?

The smile I gave you when I was shy,
filled you with so much glee.
What will people remember about me if I die?

The fierceness of my heart that made you sigh,
my love for you is a guarantee.
What will you recall when I say my final goodbye?

I want you to stay strong after I die, don't cry.
For from our love you never did flee.
What will people remember about me if I die?
What will you recall, when I say my final goodbye?
