A Symphony of Echoes crosses the oceans to
The Jungle where forces lay in wait.
Legend says
The Girl who Dared to Think will lead them as
Rebels of Eden once did against the
Children of Eden.

The Elite will not see them coming with
Glass Sword raised to fight the
Broken Throne they sit upon.
The Outsiders commence their attack before losing their
Nerve. They strike fast and hard against the
Ironhand that once held them in place.

The Blood of Olympus spills as
The Kill Order is implemented across the globe.
The Young Elites take hold quick as the last drop of blood hits the ground.

Six Months Later a new world order has been implemented
Chosen Ones from across the world gather to celebrate peace,
The Awakening of a new dawn and the end to
Calamity everywhere. Yet
The Road of the past holds
Four sets of footprints.

The End of the Affair has not come yet.
Everyman is not at peace under this new rule
Kindred spirits meet in secret to hatch a new plan
Little Women with steel in their hearts
Carve the Mark for the next rebellion to rise.
