

## Just Because

I help her with her homework just because.  
I help my parents wash the dishes just because.  
I help him with lunch his tray just because.  
I help clean the table just because.  
I picked up the trash just because.

I didn't do this because I think I'm  
cool, awesome, or helpful.  
I do this because I want to.

And you should do things like this to,  
do it just because you want to,  
not because someone tells you to.
